Your request for conformity of SIKO GmbH products in accordance with the "California Prop. 65"

Dear Sir or Madam,

the "Proposition 65" helps to protect the drinking water sources in California from being contaminated with approximately 1000 chemicals and requires businesses to inform people in California about exposures to "Proposition 65" Substances.

As a manufacturer of mechanical and electronic distance and angle measurement systems we are not a typical distributor of consumer products. Therefore, our products do not fall within the scope of this regulation

Please understand that that we cannot complete special questionnaires due to the increasing number of inquiries. However, we hope that this letter contains your desired information and thank you for your trust and good cooperation.

Kind regards

SIKO GmbH

Hanspeter Thoma
Head of Design Department
